

Join IST Austria's ISTernship program!

The IST Austria ISTernship program offers summer internships to outstanding BS and MS students interested in basic research in Biology, Computer Science, Mathematics, Physics, Neuroscience and inter-disciplinary areas. Interns will choose a group to work in, will be assigned a specific project and will conduct research under the close supervision of one of the members of the faculty and, for experimental labs, a lab mentor.

Duration: 8 –12 weeks between May 15 and September 15

Benefits:

- Monthly compensation
- Access to affordable health insurance
- Allowance for travel costs
- Subsidized housing

To apply for the program and to see a list of IST Austria faculty members participating in the program visit <http://ist.ac.at/research/isternship>.

The deadline for applications is FEBRUARY 15, 2015.
